7778-HD160SE

Ford Heavy Duty (1 Wire) 160 AMP.

7778-HD160SE

This High Output Alternator is equipped with a one-wire self energizing regulator. You will need a main charging 4 gauge wire connected from the main output terminal to your battery, see wiring kit below.

*For safety and improved performance we recommend installing our fused 4 gauge 250A. Fuse block Wiring kit to allow a maximum current flow to your battery. **Kit Part# 79-250A***

This unit fits virtually all Ford Cars and Trucks-Will replace any Ford Alternator with the straight mounting bracket setup from 1965 to 1995.

Please contact TAE with any questions you may have with this unit fitting any other Ford applications.
